UV Backlit 180 (TEU300)

GENERAL INFORMATION

≫ Product Description

UV backlit is a single side coated, antistatically - treated polyester backlit film for UV -curable ink
Direct Image on the front (Satin) surface yields images with maximum
ink density, vivid color and high image resolution for either reflective or backlit viewing
in both indoor and outdoor applications.
The special satin coating is adopted to the gloss level of UV curable ink to reduce finish diffrence.
The fixation of the UV ink to the surface is very strong and UV lamb can be run on reduced
performance. (Low) to avoide high tempertures and a possible cracking of the ink.

≫ Special Feature

Premium flatness PET Based
Premium White color surface
High quality color reproduction with and without light
Stability of production and printing
Anti-Scratch (Hardness surface)

≫ Physical Feature

180 Micron Caliper with special base material / Glossy finished surface

≫ Areas of Application

Light Box Advertisement
But & subway Advertisement
Department store display
Photo quality printing

≫ Inks of Application

≫ Printer Applications

Colorspan ,Zünd UVjet ,UV-curable Scitex , StellarJet, Oce UV Inkjet Printer

ORDER INFORMATION

≫ Order Code No.

TEU300-- : UV BACKLIT 180

≫ Available Sizes

36" x 50m 50" x 50m 60" x 50m

≫ MOQ

49 rolls per width (1 pallet)
