

## **Plazcryl PMMA sheets – Fire Classification**

We hereby confirm that our PMMA sheets are produced from polymers classified HB by the UL94 standard.

**As a result PLAZCRYL and PLAZCRYL SUPER sheets are classified HB under the UL 94 test.**

### **Fire classification as European standards:**

Rated to DIN 4102 and DIN EN 13501; **B2** as normally flammable, comparable with other materials, e.g. wood.

Rated to Euroclass according to DIN 13501; **E** with low smoke level.
