Thermoplastic Sheets for Construction, Industry, Advertising and Agriculture

November 7, 2006

Dear Customer,

The entire range of Palram products (polycarbonate, PVC, PMMA and PETG sheets) complies with the requirements of the European Union's RoHS Directive 2002/95/EC regarding the concentrations of heavy metals and heavy metal compounds of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr VI), and concentrations of flame retardants based on polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE).

This declaration is valid both for the raw materials and additives used in the production of our sheets as well as for the packaging material used for their commercialization.

Sincerely,

Sandra Gallant, Dipl.-Ing.
R&D and Technology
