Plotter possibilities		Cut, Crease, Slit-score, Cookie-Cut
Printability		Suited for digital printing / screen printing
Applications		Promotional and decorative applications, Single use, short term, small to medium sized applications.

Ask for our custom sized panel service

Board size can be changed from 500m² off within thickness 10mm, 16mm and 25mm.
The leadtime for production is the same as for standard non-stock items.

There are **no extra costs involved**, if only the length of the boards changes. This means
that the same price/m² is valid as for the standard sizes.

In width, we always start from 1200mm or 1600mm. If the custom size is an equal divisor of
the standard width, no extra costs are involved. In any case, the total with of either
1200mm or 1600mm should be taken into account.
